

OMNIRES

**OMNIRES AQUAROCK**

Functional elegance inspired by nature

---

The AQUAROCK collection of anti-slip shower trays combines nature-inspired colours with a perfectly balanced minimalist form. Its matt surface, reminiscent of soft natural sand, ensures both comfort and safety while showering. A wide range of sizes and finishes allows seamless adaptation to individual preferences and interior design concepts, embodying refined functionality.

## SOLACE FOR THE SENSES

---

The matt surface of AQUAROCK shower trays resembles the texture of fine sand, transforming everyday bathing into a unique sensory experience. This tactile quality is complemented by the highest slip resistance rating, providing enhanced safety even when the surface is damp.

”

When designing the collection, I aimed to create a product that was not only incredibly pleasant to the touch but also ensured the highest standards of safety. We have dedicated considerable time to developing a texture that would provide a unique sensory experience while guaranteeing the highest slip resistance rating.

---

Paulina Shacalis, OMNIRE Studio

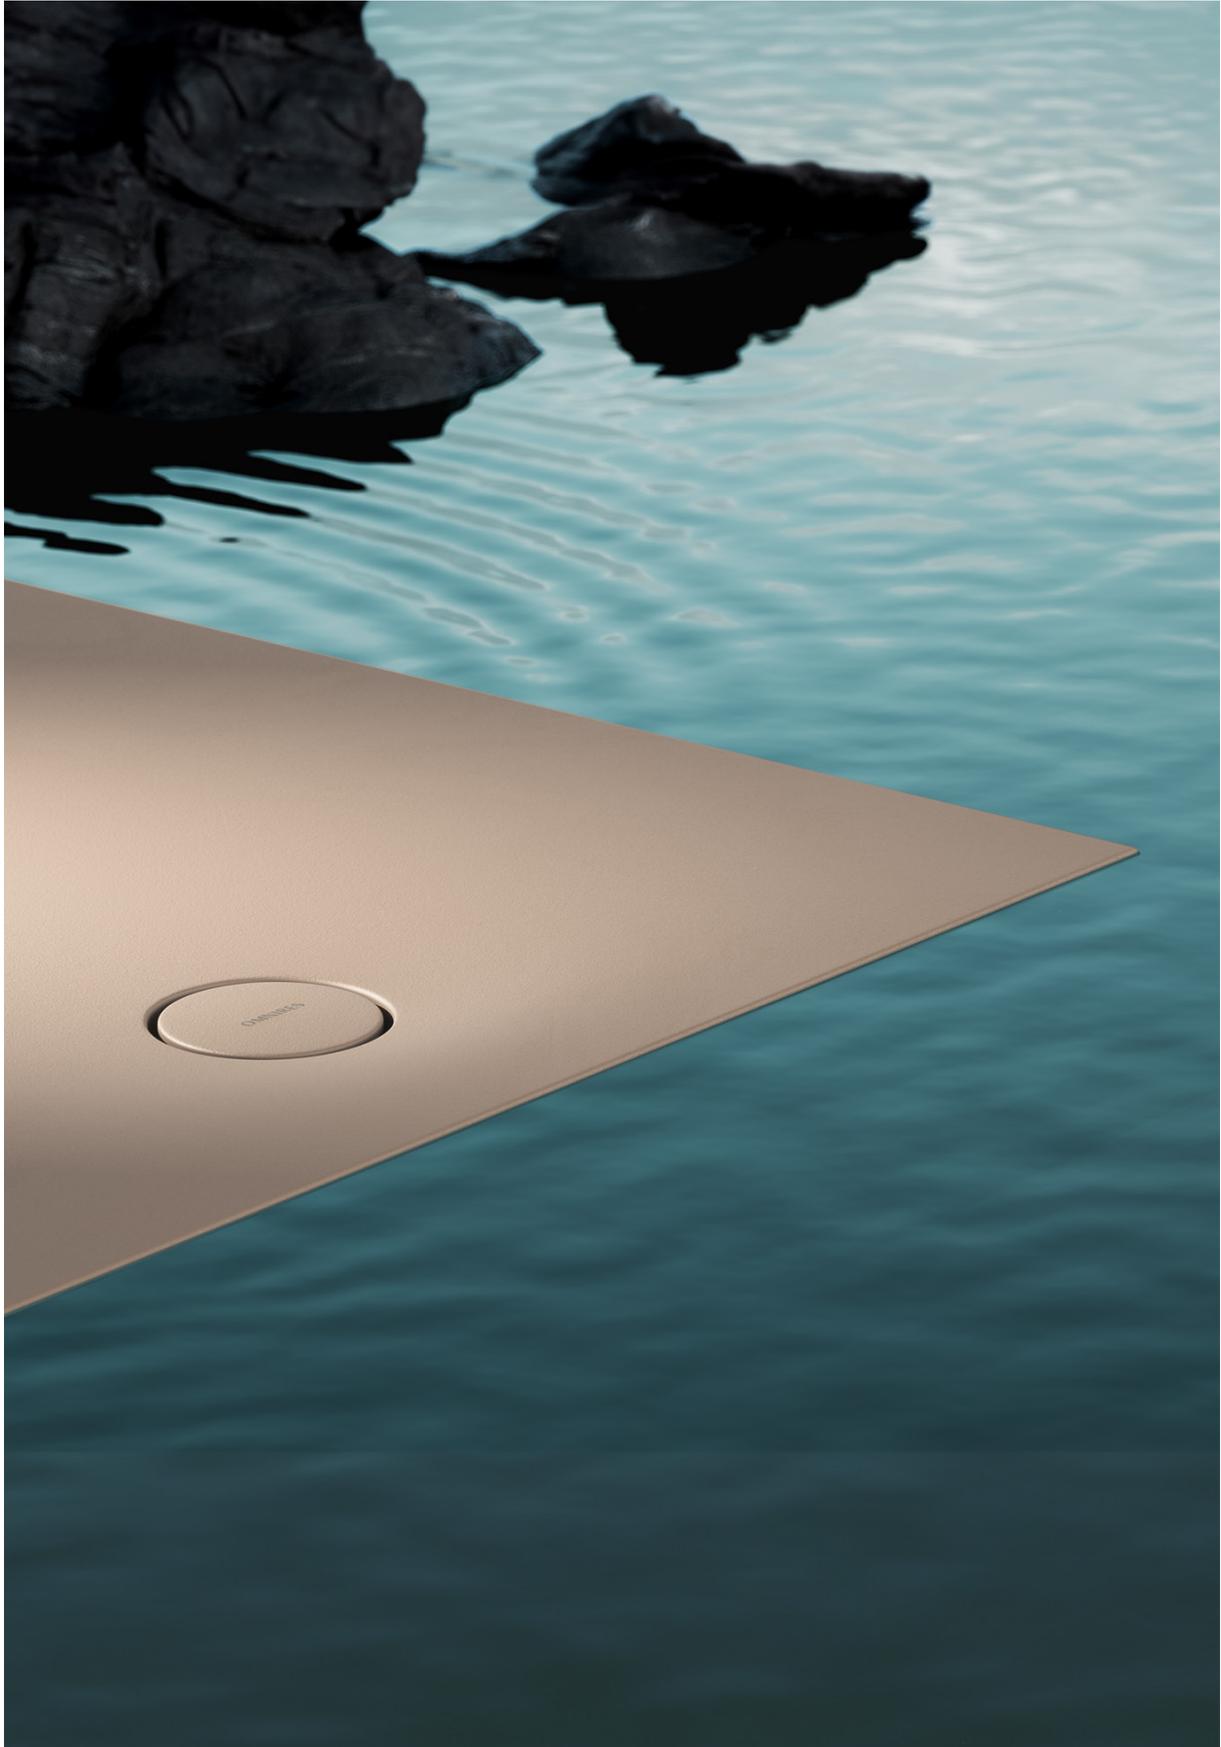

## HARMONY OF FEATURES

---

Warm to the touch, the shower trays are made of a composite material M+ whose main component is dolomite rock. Its properties provide outstanding durability and stability, ensuring resistance to extreme temperatures and heavy loads. The carefully profiled surface guarantees optimum water drainage, and the matching waste cover discreetly conceals the outlet, completing the design with a refined finish.

## A PERFECT FIT

---

Made from M+ composite material, AQUAROCK shower trays support flexible on-site cutting for precise adaptation to individual bathroom layouts. Thanks to the EASY MOUNT technology, the shower tray can be installed without drilling, and may be fitted directly on the floor, flush with the floor level, or on adjustable legs. The non-porous composite surface, free from cracks and micro-cavities, facilitates easy cleaning and effectively inhibits the growth of unwanted microorganisms.

# COLOURS INSPIRED BY NATURE

---

The AQUAROCK collection is available in six matt nature-inspired finishes. Alongside brick-red terracotta and deep olive green, the colour palette includes warm grey, sandy beige, as well as expressive black and classic white. The diversity of colours and the wide choice of sizes and shapes allow the collection to be perfectly tailored to individual requirements and preferences.

## ABOUT THE DESIGNER

---

Paulina Shacalis, Managing and Creative Director of the OMNIREs brand, is a product designer, strategist and visionary. She oversees the brand's design and strategic direction. Her collections of baths, basins and fittings have received widespread recognition in both national and international competitions, including the Red Dot Design Award, German Design Award, Must Have and Dobry Wzór. Treating her designs as a form of art, she simultaneously emphasises functionality and the product life cycle. Paulina believes that true success in the architecture sector stems from innovation and a passion for outstanding and conscious design.

# ABOUT US

OMNIREs is a respected Polish manufacturer of premium bathroom and kitchen fittings, offering a broad range of high-quality solutions distinguished by exceptional design. Founded in 1990, the brand's mission is to empower others to create thoughtful, inspiring interiors.

Each product is developed with meticulous attention to detail and life-cycle analysis, incorporating technologies that promote water and energy efficiency. Created in collaboration with renowned designers, OMNIREs collections stand out for their distinctive aesthetics, innovative materials and advanced engineering.

The brand's international reputation is confirmed by numerous Red Dot, iF and German Design Awards.
