

RIVERSIDE | acrylic shower tray, 90 x 80 cm

Finish: gloss white (BP)

The OMNIRES RIVERSIDE acrylic shower tray is extremely durable thanks to its multi-layer stabilizing substrate that makes the entire structure much stiffer, simultaneously offering superb thermal (the tray remains warm) and acoustic (the noise generated by drops of water is reduced by 40%) insulation properties. The drain trap is integrated into the structure of the tray, making its installation much easier (*EasyMount*). The tray features the *CleanShield* anti-bacterial coat that improves the product's hygienic properties and facilitates cleaning.

Certificates: European Declaration of Performance (CE marking)

Technologies

The shower tray is made using the innovative STABILSOUND technology. Thanks to its reinforced construction, it is durable, stable and resistant to pressure.

The shower tray is coated with the CLEAN SHIELD technology. An anti-bacterial and anti-allergy coating enhances its hygienic properties, and makes it easy to clean and maintain.

Thanks to the EASY MOUNT system, the shower tray may be installed drill-free; on top of the bathroom floor or flush with the tiles.

Specification

- side 1: 90 cm
- side 2: 80 cm
- radius: 55 cm
- height: 17 cm
- depth: 7 cm
- drain dimension: ø9 cm
- shower tray with integrated panel
- shower tray waste not included (choose)

Product care

How to properly clean a shower tray?

Shower trays should be cleaned regularly, preferably after each use, so as to prevent the build-up of hard-to-remove dirt. For daily maintenance of surfaces, use a soft cloth (for example, a microfibre cloth) and a solution of water with a mild cleaning agent with a natural composition. After cleaning the shower tray, rinse it thoroughly with clean water and wipe it dry. It is not recommended to use rough or abrasive materials and corrosive or bleaching substances to prevent damaging the surface of the product.

For more stubborn dirt, use a 10% citric acid solution with water. Apply the solution to the product for 2 to 3 minutes. After that time, rinse the product thoroughly with clean water and wipe it dry. If necessary, the process can be repeated. Residues from hair dye, lipstick or other products with a dyeing effect should be removed from the surface immediately to prevent the formation of
