- height: 5 cm
- depth: 3.2 cm
- drain dimension: ø9 cm
- shower tray with integrated panel
- acrylic panel hides the siphon
- shower tray waste not included
- feet, frame or polystyrene support must be purchased separately

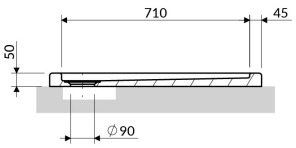

Product care

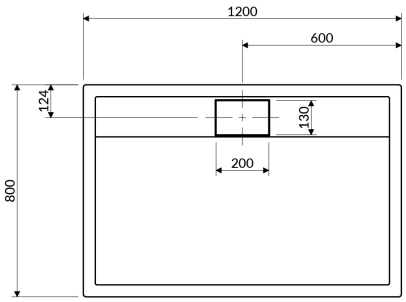

HOW TO PROPERLY CLEAN A SHOWER TRAY?

Shower trays should be cleaned regularly, preferably after each use, so as to prevent the build-up of hard-to-remove dirt. For daily maintenance of surfaces, use a soft cloth (for example, a microfibre cloth) and a solution of water with a mild cleaning agent with a natural composition. After cleaning the shower tray, rinse it thoroughly with clean water and wipe it dry. It is not recommended to use rough or abrasive materials and corrosive or bleaching substances to prevent damaging the surface of the product.

For more stubborn dirt, use a 10% citric acid solution with water. Apply the solution to the product for 2 to 3 minutes. After that time, rinse the product thoroughly with clean water and wipe it dry. If necessary, the process can be repeated. Residues from hair dye, lipstick or other products with a dyeing effect should be removed from the surface immediately to prevent the formation of permanent marks.
