

## CONTOUR | bidet system for concealed installation

---

### Finish: brushed gold (GLB)

The OMNIRES CONTOUR collection intrigues with its extravagant form and decorative details. An austere, architectural design with a diamond milling marvels with the sophisticated combination of textures and perfect workmanship.

Made of high grade brass, the mixer is equipped with a superior quality ceramic cartridge.

Brushed gold is a noble finishing in an elegant shade, with a contemporary, satin surface. The product is coated using the advanced PVD technology.

Design: Paulina Shacalis, OMNIRES Studio  
Awards: Red Dot Design Award, Must Have  
Distinctions: Dobry Wzór

## Technologies

---

The mixer is equipped with the highest quality ceramic cartridge which ensures smooth and precise water flow control whilst guaranteeing long term product performance.

The product is coated using the advanced PVD technology which guarantees the highest possible durability and facilitates cleaning.

The mixer's body, the valve and the rosette are all made of high quality A-grade brass.

## Flow characteristics

---

- water flow at 3 bar: 12 l/min
- hot water supply: max. 90 °C
- working pressure 1-5 bar

## Specification

---

- shower mixer for concealed installation (CT8045GLB)
- brass bidet hand shower
- stainless steel flexible shower hose, length: 125 cm
- brass shower elbow with a hand shower bracket (8873C-KGLB)
- after using the product, always shut off the water supply using the mixer or the inside stop cock. Leaving the bidet hand shower pressurized can lead to leakage or damage to the product.

## Product care

---

### How to take care of bathroom and kitchen fittings?

You should clean your bathroom and kitchen fittings regularly, preferably after each use, so as to prevent the build-up of hard-to-remove dirt. For daily maintenance of external surfaces, use a soft cloth (for example, a microfibre cloth) and a solution of water with a mild cleaning agent with a natural composition, then rinse the product thoroughly with clean water and wipe it dry. It is not recommended to use rough or abrasive materials and corrosive or bleaching substances to prevent damaging the surface of the product.

For more stubborn dirt, use a 10% citric acid solution with water. Apply this solution directly to the product or cover the product with a cloth soaked in the solution. After 10 minutes, rinse the product thoroughly with clean water and wipe it dry. If necessary, the process can be repeated.
