

BARI M+ | countertop basin, 50 x 30 cm

Finish: white / gloss grey (BSP)

OMNIRES BARI countertop basin stands out thanks to its classic regular form with a modern touch. The basin marvels with a perfect, oval shape and well-balanced proportions.

The basin is made of a composite material (M+) whose main component is dolomite rock. The innovative production technology guarantees impeccable execution of every detail while ensuring remarkable durability and resistance.

The gloss grey combined with classic white is an original finishing with a shiny surface.

Certificates: Polish Hygienic Certificate PZH

Technologies

The material provides highly desirable, precise finishing. Product surface is perfectly smooth and even, and dimensions precisely match the technical drawing (tolerance 0-3 mm).

The product is made of an innovative composite material, M+, which is exceptionally durable, as well as resistant to damage, pressure and extreme temperatures.

Perfectly smooth product surface is free from any ruptures of micro openings, where bacteria and germs could grow. It is also easy to clean and maintain.

The product is very pleasant to the touch. The satin finish resembles a smooth stone that has been polished by water.

Product surface is warm to the touch. Water maintains its temperature for longer, both maximising the user experience and saving energy.

Thanks to its high density, M+ composite provides exceptional acoustic absorption. Sound of the falling water is minimised.

Specification

- length: 50 cm
- width: 30 cm
- height: 12.4 cm
- no overflow
- net weight: 6,3 kg
- gross weight: 8,4 kg
- basin waste not included (choose)
