

NEO M+ | countertop basin, 60 x 36 cm

Finish: matt white (BM)

The countertop basin from the OMNIRES NEO M+ collection offers a flawless fusion of minimalism with traditional, time-honoured details. The distinct undercut at the base, the curves and the subtly finished rims allude to neoclassical forms, adding a touch of timeless elegance to the collection. The matching waste cover discreetly conceals the waste without disturbing the basin's harmoniously contoured shape.

The basin is made of a composite material (M+) whose main component is dolomite rock. The innovative production technology guarantees impeccable execution of every detail while ensuring remarkable durability and resistance.

The silky-smooth matt surface of the basin has a finish in classic white.

Design: Pawlak & Stawarski Studio

Awards: Red Dot Design Award, German Design Award, Must Have

Technologies

The product is made of an innovative composite material, M+, which is exceptionally durable, as well as resistant to damage, pressure and extreme temperatures.

The material provides highly desirable, precise finishing. Product surface is perfectly smooth and even, and dimensions precisely match the technical drawing (tolerance 0-3 mm).

Perfectly smooth product surface is free from any ruptures of micro openings, where bacteria and germs could grow. It is also easy to clean and maintain.

The product is very pleasant to the touch. The satin finish resembles a smooth stone that has been polished by water.

Product surface is warm to the touch. Water maintains its temperature for longer, both maximising the user experience and saving energy.

Thanks to its high density, M+ composite provides exceptional acoustic absorption. Sound of the falling water is minimised.

Dziesięć lat gwarancji na szczelność korpusu w bateriach łazienkowych.

Specification

- length: 60 cm
- width: 36 cm
- height: 15 cm
- no overflow
- drain cover included
- basin waste not included (A47CR)
- capacity: 14.5 l
- net weight: 9.3 kg
- gross weight: 10 kg
