

CLASSICA M+ | countertop basin, 61 x 40 cm

Finish: gloss white (BP)

The OMNIRES CLASSICA countertop basin is an ingenious combination of modernity and the most stunning classical principles. The distinctive profiling, the gently curved rim and the perfect oval shape of the bowl make the basin individually unique. Its optimum width ensures impressive comfort of use, while the matching waste cover gives the basin an elegant and smart look.

The basin is made of a composite material (M+) whose main component is dolomite rock. The innovative production technology guarantees impeccable execution of every detail while ensuring remarkable durability and resistance.

The gleaming surface of the basin, naturally reflecting the light, has a finish in classic white.

Design: Paweł Gliński, Marmite

Technologies

The material provides highly desirable, precise finishing. Product surface is perfectly smooth and even, and dimensions precisely match the technical drawing (tolerance 0-3 mm).

The product is made of an innovative composite material, M+, which is exceptionally durable, as well as resistant to damage, pressure and extreme temperatures.

Perfectly smooth product surface is free from any ruptures of micro openings, where bacteria and germs could grow. It is also easy to clean and maintain.

The product is very pleasant to the touch. The satin finish resembles a smooth stone that has been polished by water.

Product surface is warm to the touch. Water maintains its temperature for longer, both maximising the user experience and saving energy.

Thanks to its high density, M+ composite provides exceptional acoustic absorption. Sound of the falling water is minimised.

Specification

- length: 61 cm
- width: 40 cm
- height: 14 cm
- no overflow
- drain cover included
- net weight: 12,23 kg
- gross weight: 13,08 kg
