

THASOS M+ | countertop/wall-mounted basin with internal overflow, 50 x 42 cm

Finish: gloss white (BP)

The OMNIRES THASOS basin features the elegant design with an expressive touch. Right angles and pure lines define the structure, add visual consistency to the space and give it a modern look. The basin can be mounted countertop or hung directly onto the wall.

The basin is made of a composite material (M+) whose main component is dolomite rock. The innovative production technology guarantees impeccable execution of every detail while ensuring remarkable durability and resistance.

The gleaming surface of the basin, naturally reflecting the light, has a finish in classic white.

Certificates: European Declaration of Performance (CE marking)

Technologies

The product is made of an innovative composite material, M+, which is exceptionally durable, as well as resistant to damage, pressure and extreme temperatures.

The material provides highly desirable, precise finishing. Product surface is perfectly smooth and even, and dimensions precisely match the technical drawing (tolerance 0-3 mm).

Perfectly smooth product surface is free from any ruptures of micro openings, where bacteria and germs could grow. It is also easy to clean and maintain.

The product is very pleasant to the touch. The satin finish resembles a smooth stone that has been polished by water.

Product surface is warm to the touch. Water maintains its temperature for longer, both maximising the user experience and saving energy.

Thanks to its high density, M+ composite provides exceptional acoustic absorption. Sound of the falling water is minimised.

Specification

- length: 50 cm
- width: 42 cm
- total height: 10.3 cm
- rim height: 10 cm
- with internal overflow
- with 1 tap hole
- net weight: 11,5 kg
- gross weight: 12,65 kg
- basin waste not included (choose)
