

SIENA M+ | freestanding bath, 161 x 81 cm

Finish: gloss white (BP)

The OMNIREs SIENA collection displays a precisely defined line and a harmonious oval profile. Its minimalist and subtle form has been worked out into perfection.

The bath is made of a composite material (M+) whose main component is dolomite rock. The innovative production technology guarantees impeccable execution of every detail while ensuring remarkable durability and resistance.

The gleaming surface of the bath, naturally reflecting the light, has a finish in classic white.

Design: Janusz Langner, OMNIREs Studio

Certificates: European Declaration of Performance (CE marking)

Technologies

The product is made of an innovative composite material, M+, which is exceptionally durable, as well as resistant to damage, pressure and extreme temperatures.

The material provides highly desirable, precise finishing. Product surface is perfectly smooth and even, and dimensions precisely match the technical drawing (tolerance 0-3 mm).

Perfectly smooth product surface is free from any ruptures of micro openings, where bacteria and germs could grow. It is also easy to clean and maintain.

The product is very pleasant to the touch. The satin finish resembles a smooth stone that has been polished by water.

Product surface is warm to the touch. Water maintains its temperature for longer, both maximising the user experience and saving energy.

Thanks to its high density, M+ composite provides exceptional acoustic absorption. Sound of the falling water is minimised.

Specification

- length: 160.5 cm
- width: 80.5 cm
- height: 60 cm
- single-ended bath
- no overflow
- capacity: 360 l
- net weight: 90,8 kg
- gross weight: 111 kg
- bath waste not included (choose)
