OMNIRES

ADAPTER | hand shower adapter

Finish: polished copper (CP)

Hand shower adapter is a practical component connecting the hand shower and the shower hose, which allows the water flow to be directed ergonomically. Thanks to the 60-degree angle, the water flows downwards rather than horizontally, increasing showering comfort. This practical solution can be applied to shower elbows and sliding bars without hand shower angle adjustment, deck-mounted bath mixers and multi-hole mixers for concealed installation.

Copper is a sophisticated finish with a warm red-brown hue and a perfectly smooth, lustrous surface. The product is coated using advanced PVD technology.

Technologies

The product is coated using the advanced PVD technology which guarantees the highest possible durability and facilitates cleaning.

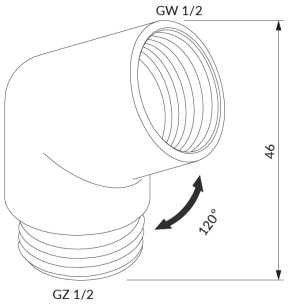

The product is made of high quality A-grade brass.

Flow characteristics

- working pressure 1-5 bar

Specification

- 1/2" connection
- height: 4.6 cm
