

## Y | hand shower

---

### Finish: polished chrome (CR)

The OMNIRES Y collection thrills with its simple line and an impeccable form which expresses the passion in pursuit for the ideal. The design has been inspired by and based on the shape of a circle. Its timeless and perfectly refined design, created in the spirit of minimalism, offers the maximum of interior design options. The hand shower from the collection has been designed for maximum user comfort. Its modern design adds elegance and lightness to the interior, while the slim, ergonomic shape and wide colour palette make the collection a perfect fit for contemporary bathroom aesthetics.

Chrome is a versatile finishing in a silvery colour, with the perfectly even and lustrous surface.

Certificates: Polish Declaration of Performance (B marking), Polish Hygienic Certificate PZH

## Technologies

---

The EASY CLEAN nozzles allow the user to easily remove any limescale build up by simply wiping their silicone surface.

The product's coating, made using advanced galvanization technology, is durable and easy to clean.

The product is made of high quality A-grade brass.

## Flow characteristics

---

- water flow at 3 bar: 14 l/min
- working pressure 1-5 bar
- noise class: II

## Specification

---

- brass
- 1-function

## Product care

---

### What is the best way to care for a hand shower ?

Remember to regularly wipe the silicone nozzles with your hand to remove any limescale deposits that might be forming on their surface. A toothpick or toothbrush can also be used to clean the spaces in between if there is a considerable build-up of limescale.

For more stubborn dirt, it is recommended to immerse the hand shower in a 10% citric acid solution with water for about 10 minutes to soften the limescale and then wipe across the nozzles with a soft brush. It is not recommended to use rough or abrasive materials and corrosive or bleaching substances to prevent damaging the surface of the product. From time to time, it is recommended to unscrew the hand shower and flush it from the inside to remove any dirt preventing the flow of water.
