

WATERFALL | shower head, 49 x 21 cm

Finish: chrome (CR)

Certificates: Polish Declaration of Performance (B marking), Polish Hygienic Certificate PZH

Technologies

Developed to minimise environmental footprint, the ECO WATER technology reduces water consumption by approx. 30% without compromising on the overall product experience.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The product is coated using the advanced electroplating technology which guarantees durability, offers good resistance to mechanical damage and facilitates cleaning.

Thanks to the AIR WATER technology, the water is soft and pleasant to the touch, enhancing the overall showering experience.

The EASY CLEAN nozzles allow the user to easily remove any limescale build up by simply wiping their silicone surface.

The product is made of high quality A-grade brass.

Flow characteristics

- water flow at 3 bar: 12-15 l/min
- working pressure 1-5 bar

Specification

- brass
- with integrated shower arm
- dimensions: 48.5 x 20.4 cm, thickness: 3.6 cm
- wall to waterfall spout distance: 16 cm
- 2-function, streams: rain, waterfall
- two 1/2" mixed water outlets
- to be mounted with any shower/bath mixer for concealed installation (min. 2-way)
- flow rate: ~12 l/min. (rain); ~15 l/min. (waterfall)
