OMNIRES

NEVADA | shower head, ø23 cm

Finish: polished chrome / white (CRB)

The OMNIRES NEVADA collection captures attention with its classic design, while its versatile aesthetic allows it to blend effortlessly with other bathroom elements. The shower head delivers a consistent, soothing water flow, transforming every bath into a uniquely relaxing experience.

White and chrome is a novel composition of flawless surfaces, which renders a versatile effect and a light look.
Certificates: Polish Declaration of Performance (B marking), Polish Hygienic Certificate PZH

Technologies

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The EASY CLEAN nozzles allow the user to easily remove any limescale build up by simply wiping their silicone surface.

Flow characteristics

- water flow at 3 bar: 17 l/min
- working pressure 1-5 bar
- acoustic group: N

Specification

- dimensions: ø22.5 cm, thickness: 1.8 cm
- 1-function
- 1/2" water connection
- flow rate: ~17 l/min

Product care

HOW TO TAKE CARE OF
A SHOWER HEAD?

Remember to regularly wipe the silicone nozzles with your hand to remove any limescale deposits that might be forming on their surface. Avoid using harsh cleaning agents that may damage the nozzles and the surface of the shower head.

The shower head should be angled after each use to allow the remaining water to flow out. This is the easiest yet necessary way to reduce the build-up of limescale from the water inside the shower head. Tilting the shower head additionally reduces the risk of the

product becoming prone to leaking, allowing the product to serve its purpose reliably for an extended time.
