

SLIDE | shower system for concealed installation

Finish: brushed graphite (GR)

The OMNIRES SLIDE collection stands out with its avant-garde form. Soft lines become subject to geometrical discipline. Surfaces bend at the play of light, adding a unique touch to the entire collection.

Graphite is an intriguing finishing in the shade of metallic grey, with a satin, brushed surface.

Design: Dominika Drezner-Ilczuk
Distinctions: Dobry Wzór

Technologies

The mixer is equipped with the highest quality ceramic cartridge which ensures smooth and precise water flow control whilst guaranteeing long term product performance.

The EASY CLEAN nozzles allow the user to easily remove any limescale from the shower head and the hand shower by simply wiping their silicone surface.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The mixer's body is made of high quality A-grade brass.

Flow characteristics

- hot water supply: max. 90 °C

Specification

- shower/bath mixer for concealed installation (SL7735GR)
- brass shower head (WG220-OGR), dimensions: 20 x 20 cm
- brass shower arm (RA15GR)
- hand shower (JIMJIM-RGR), 3-function, streams: rain, whip, mixed
- stainless steel flexible shower hose (O23-XGR), długość: 150 cm
- brass shower elbow with a hand shower bracket (8815GR)
