

## Y | shower system for concealed installation with body jets

---

Finish: polished chrome (CR)

The OMNIRES Y collection thrills with its simple line and an impeccable form which expresses the passion in pursuit for the ideal. The design has been inspired by and based on the shape of a circle. Its timeless and perfectly refined design, created in the spirit of minimalism, offers the maximum of interior design options.

Chrome is a versatile finishing in a silvery colour, with the perfectly even and lustrous surface.

Design: Janusz Langner, OMNIRES Studio

## Technologies

---

The mixer is equipped with the highest quality ceramic cartridge which ensures smooth and precise water flow control whilst guaranteeing long term product performance.

The EASY CLEAN nozzles allow the user to easily remove any limescale from the shower head, the hand shower and the body jet by simply wiping their silicone surface.

The product's coating, made using advanced galvanization technology, is durable and easy to clean.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The FLEXI JET system allows the user to precisely adjust the direction of the jet's water flow.

The mixer and the shower head are made of high quality A-grade brass.

## Flow characteristics

---

- working pressure 1-10 bar
- hot water supply: max. 90 °C
- water flow at 3 bar: 20 l/min
