Technologies

Thanks to the SAFE TOUCH technology the mixer's body doesn't get hot, eliminating the risk of accidental scalding.

The EASY CLEAN nozzles allow the user to easily remove any limescale from the shower head and the hand shower by simply wiping their silicone surface.

The product is made of high quality A-grade brass.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.
