

CALGARY | wall-mounted shower column

Finish: polished chrome (CR)

Certificates: Polish Declaration of Performance (B marking)

Technologies

The ECO WATER technological solutions minimise environmental footprint by reducing water consumption by 30-50% without compromising on the overall product experience.

The EASY CLEAN nozzles allow the user to easily remove any limescale from the shower head and the hand shower by simply wiping their silicone surface.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

Flow characteristics

- working pressure 1-5 bar
