MICRO | wall-mounted shower column

Finish: chrome (CR)

Certificates: Polish Declaration of Performance (B marking)

Technologies

Developed to minimise environmental footprint, the ECO WATER technology reduces water consumption by approx. 30% without compromising on the overall product experience.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

Thanks to the AIR WATER technology, the water is soft and pleasant to the touch, enhancing the overall showring experience.

The EASY CLEAN nozzles allow the user to easily remove any limescale build up by simply wiping their silicone surface.
