

TORONTO | wall-mounted shower column

Finish: polished chrome (CR)

The OMNIREES UNI collection stands out for its multifunctionality, offering practical solutions that enhance everyday comfort. The hand shower offers three water flow options – rain, whip, and mixed – while the shower head provides a soothing, even stream of water for deep relaxation. The shower column can be paired with any exposed shower or bath mixer, allowing you to create a configuration perfectly tailored to any bathroom's style and functionality.

Chrome is a versatile finishing in a silvery colour, with the perfectly even and lustrous surface.

Certificates: Polish Declaration of Performance (B marking)

Technologies

The ULTRA SLIMLINE showerhead has been designed with environmental footprint in mind. Its ergonomic, subtle shape minimizes water flow and reduces the overall water consumption.

The EASY CLEAN nozzles allow the user to easily remove any limescale from the shower head, the hand shower and the body jet by simply wiping their silicone surface.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The shower head is made of high quality stainless steel.

Flow characteristics

- working pressure 1-5 bar

Specification

- to be mounted with any shower or bath mixer for exposed installation
- shower column (UN10041CR) with diverter and shower head arm
- distance between mounting brackets: 73.2 cm
