

## YOSEMITE | wall-mounted shower column

---

Finish: polished chrome (CR)

The OMNIREs YOSEMITE collection stands out for its multifunctionality, offering features that enhance everyday comfort. The hand shower offers five water flow options – massage, mist, aerated rain, aerated massage, and aerated mist – while the shower head provides a soothing, even stream of water for deep relaxation. The shower column can be paired with any exposed shower or bath mixer, allowing you to create a configuration perfectly tailored to any bathroom's style and functionality.

Chrome is a versatile finishing in a silvery colour, with the perfectly even and lustrous surface.

## Technologies

---

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The EASY CLEAN nozzles allow the user to easily remove any limescale build up by simply wiping their silicone surface.

The product's coating, made using advanced galvanization technology, is durable and easy to clean.

## Flow characteristics

---

- working pressure 1-5 bar
