OMNIRES

OTTAWA COMFORT | ceramic wall-mounted toilet SILENT POWER™ with soft-close seat, 54 x 37 cm

Finish: matt white (BM)

The OMNIRES OTTAWA COMFORT rimless toilet is defined by its well-proportioned, organic shape. The design and optimal external dimensions enhance functionality and comfort of use. The minimalist, accurate line breaks the gently rounded form of the soft-close seat. The toilet bowl and the ultramodern seat create a harmonious whole.

The innovative SILENT POWER™ technology, which uses a natural water vortex, guarantees efficient and water-saving flushing of the toilet bowl. A powerful jet of water is ejected from the side of the bowl, and the bowl's optimally profiled shape sends it in a spiral motion that perfectly cleans its entire inner surface for long-lasting hygiene. The flow of water allows for very quiet flushing offering maximal discretion and efficiency, whilst ustiling up to 50% less water compared to standard solutions.

White matt is a contemporary finish that is silky-smooth to the touch.

Certificates: European Declaration of Performance (CE marking), Polish Hygienic Certificate PZH

Technologies

The SILENT POWER™ flushing technology guarantees maximum flushing efficiency while using much less water – reducing water consumption by up to 50%.

The natural water vortex created in toilet bowls designed using the SILENT POWER™ technology allows for very quiet flushing ensuring discretion.

Thanks to its rimless form, the toilet is easy to clean.

The toilet seat incorporates silver ions with significant antibacterial properties.

The soft-close toilet seat closes discreetly, slowly and quietly.

Toilet seat with the clip-off system may be easily lifted off the toilet for cleaning purposes.

The toilet is made of the highest quality ceramic characterised by good hygienic properties.

The toilet seat is made of high quality, scratch-resistant duroplast.

Specification

- material (toilet): ceramic
- material (toilet seat): duroplast
- length: 54 cm
- width: 36.5 cm
- height: 37,5 cm
- vortex flush system in technology SILENT POWER™
- rimless form
- concealed mounting brackets
- minimalist cover rosettes
- soft-close toilet seat with the clip-off system
- mounting distance of the seat: 15 cm
- consistent color scheme: white mounting button, white matte rosettes

Product care

HOW TO PROTECT AND CLEAN COMPOSITE AND CERAMIC PRODUCTS?

Products made from M+ composite material and ceramics should be cleaned regularly, preferably after each use, so as to prevent the build-up of hard-to-remove dirt. For daily maintenance of external surfaces, use a soft cloth (for example, a microfibre cloth) and a solution of water with a mild cleaning agent with a natural composition, then rinse the product thoroughly with clean water and wipe it dry. It is not recommended to use rough or abrasive materials and corrosive or bleaching substances to prevent damaging the surface of the product.

For more stubborn dirt, use a 10% citric acid solution with water. Apply the solution to the product for 2 to 3 minutes. After that time, rinse the product thoroughly with clean water and wipe it dry. If necessary, the process can be repeated. Residues from hair dye, lipstick or other products with a dyeing effect should be removed from the surface immediately to prevent the formation of permanent marks.
