

OMNIRES

CONTOUR

Extravagant form and decorative details

The OMNIRES CONTOUR collection, designed by Paulina Shacalis, captivates with its extravagant form and refined detailing. Noble textures and premium materials emphasise the precision of craftsmanship, while the collection's distinctive geometric pattern and pronounced milling create a sophisticated interplay of surfaces and a harmonious composition of details.

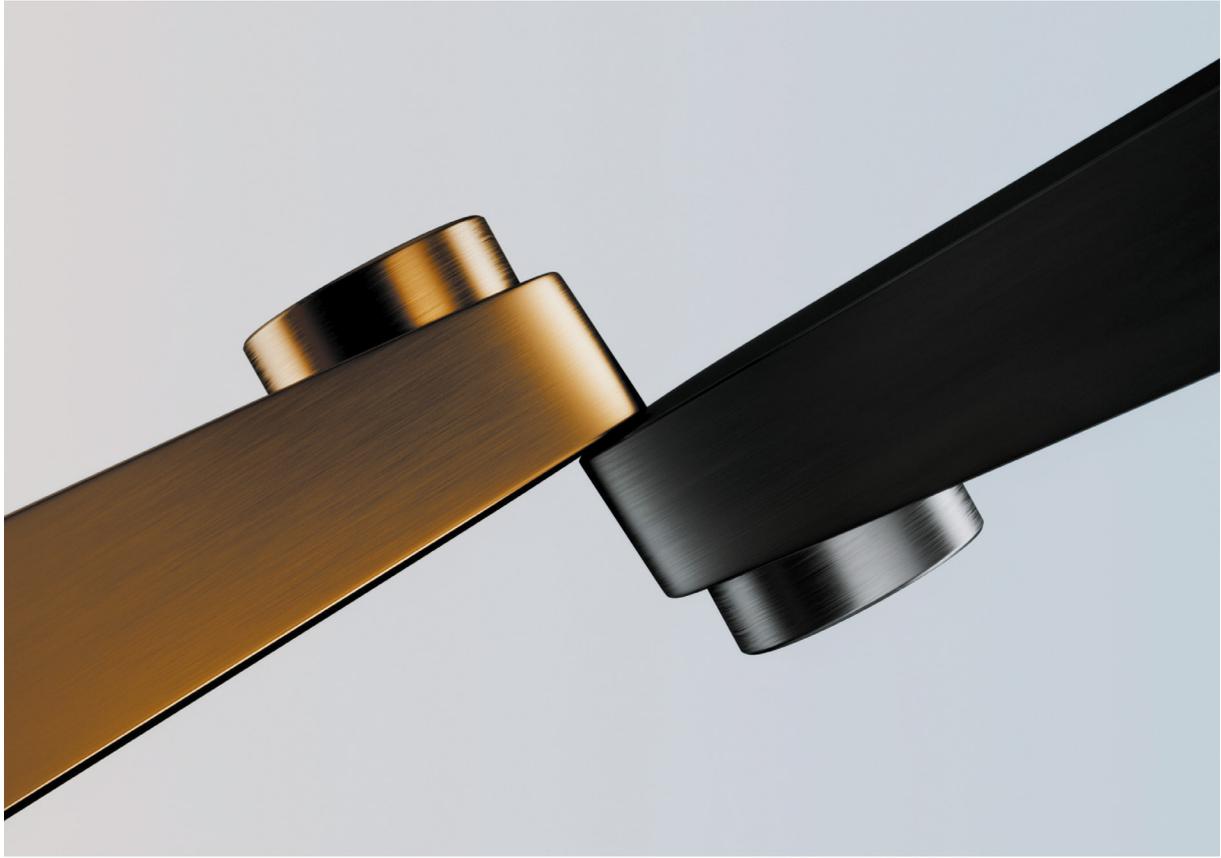

ELEGANCE AND ERGONOMICS

The collection's styling balances austerity with subtlety, resulting in a noble yet highly contemporary character. Diamond-cut milling retains the clean, cylindrical form while ensuring optimum ergonomics – its structure improves grip security, creating a natural anti-slip effect. The milled hot and cold water labelling has been designed to make the movement of the mixer fully intuitive.

”

Diamond-cut, cylindrical details give the collection a jewellery-like look and feel. The mixers are also remarkably pleasant to the touch. I wanted the collection to evoke positive visual sensations while stimulating the other senses.

ADVANCED TECHNOLOGY

The use of intuitive technologies and environmentally friendly solutions ensure an exceptional level of comfort, safety and reliability for many years. OMNIRE'S CONTOUR mixers are equipped with premium ceramic or thermostatic cartridges, providing smooth, precise water flow control. Moreover, aerators with AIR WATER technology make the water soft and pleasant to the touch, with a quiet, even stream. Maintenance is simplified thanks to the EASY CLEAN aerator, whose special silicone coating allows effortless removal of limescale with a single wipe of a finger.

LUXURIOUS TEXTURES

The OMNIREs CONTOUR collection is available in four sophisticated finishes. Classic chrome provides a versatile, silvery glossy surface, while three contemporary satin brushed textures – gold, copper, and anthracite – are created using advanced PVD technology to ensure maximum scratch resistance and facilitate easy cleaning. The fittings reflect exquisite craftsmanship, and their durability is guaranteed by

high-grade brass construction. The extensive range of the OMNIREs CONTOUR collection allows users to design interiors perfectly suited to their needs. From classic standing basin and bidet mixers to wall-mounted shower systems, as well as a wide selection of concealed solutions and additional fittings for baths or showers, the collection offers endless design possibilities and complete creative freedom.

AWARD-WINNING DESIGN

The design solutions and inventiveness of the CONTOUR collection have found wide acclaim in international and national competitions, winning the Red Dot Design Award and the Must Have Award, as well as becoming a finalist in the Dobry Wzór (Good Design) competition.

ABOUT THE DESIGNER

Paulina Shacalis, Managing and Creative Director of the OMNIREs brand, is a product designer, strategist and visionary. She oversees the brand's design and strategic direction. Her collections of baths, basins and fittings have received widespread recognition in both national and international competitions, including the Red Dot Design

Award, German Design Award, Must Have and Dobry Wzór. Treating her designs as a form of art, she simultaneously emphasises functionality and the product life cycle. Paulina believes that true success in the architecture sector stems from innovation and a passion for outstanding and conscious design.

ABOUT US

OMNIREES is a respected Polish manufacturer of premium bathroom and kitchen fittings, offering a broad range of high-quality solutions distinguished by exceptional design. Founded in 1990, the brand's mission is to empower others to create thoughtful, inspiring interiors.

Each product is developed with meticulous attention to detail and life-cycle analysis, incorporating technologies that promote water and energy efficiency.

Created in collaboration with renowned designers, OMNIREES collections stand out for their distinctive aesthetics, innovative materials and advanced engineering.

The brand's international reputation is confirmed by numerous awards, including Red Dot, iF and the German Design Award.
