Technologies

The mixer is equipped with the highest quality ceramic cartridge which ensures smooth and precise water flow control whilst guaranteeing long term product performance.

The ECO WATER technology minimizes environmental footprint by reducing the water consumption by approx. 50%, without compromising on the overall product experience.

Thanks to the AIR WATER technology, the water is soft and pleasant to the touch. The stream does not spray and it is quiet and consistent, even if any variations in water pressure occur.

The product is coated using the advanced PVD technology which guarantees highest possible durability, offers exceptional resistance to damage and facilitates cleaning.

The mixer's body, the valve and the rosette are all made of high quality A-grade brass.
