Technologies

The mixer is equipped with the highest quality ceramic cartridge which ensures smooth and precise water flow control whilst guaranteeing long term product performance.

Thanks to the AIR WATER technology, the water is soft and pleasant to the touch. The stream does not spray and it is quiet and consistent, even if any variations in water pressure occur.

The product's coating, made using advanced galvanization technology, is durable and easy to clean.

The mixer's body, the valve and the rosette are all made of high quality A-grade brass.
