

CLICK-CLACK | click clack basin and bidet waste

Finish: polished chrome (CR)

Click-clack wastes are practical accessories designed for effortless opening and closing of the water drain. Their intuitive mechanism ensures ease of use – one press closes the drain, another opens it. Suitable for basins and bidets with or without an overflow, they provide a watertight fit and straightforward installation. The minimalist design, free from visible mechanical elements, helps reduce the build-up of dirt and limescale around the drain.

Polished chrome is a versatile finish in a silvery colour, with a perfectly smooth and lustrous surface.

Certificates: Polish Declaration of Performance (B marking), Polish Hygienic Certificate PZH

Technologies

The product's coating, made using advanced galvanization technology, is durable and easy to clean.

Specification

- universal, for basins and bidets with or without overflow
- 1¼" connection
