OMNIRES

PARMA M+ | countertop basin, 50 x 35 cm

Finish: gloss white (BP)

The OMNIRES PARMA collection stands out with its geometrical structure and subtle rounds. Gentle curves are a counterpoint to smooth, perfectly defined surfaces, creating a modern and timeless form.

The basin is made of a composite material (M+) whose main component is dolomite rock. The innovative production technology guarantees impeccable execution of every detail while ensuring remarkable durability and resistance.

The gleaming surface of the basin, naturally reflecting the light, has a finish in classic white.

Design: Janusz Langner, OMNIRES Studio

Certificates: European Declaration of Performance (CE marking)

Technologies

The product is made of an innovative composite material, M+, which is exceptionally durable, as well as resistant to damage, pressure and extreme temperatures.

The product is very pleasant to the touch. The satin finish resembles a smooth stone that has been polished by water.

Thanks to its high density, M+ composite provides exceptional acoustic absorption. Sound of the falling water is minimised.
