

SILK M+ | countertop basin, ø40 cm

Finish: gloss white (BP)

OMNIRES SILK countertop basin delights with its gentle lines and organic shape. The form highlights the universal beauty of natural curves. Precisely finished edges and the perfectly fitted drain cover are subtle details which create an exceptionally harmonious product design.

The basin is made of a composite material (M+) whose main component is dolomite rock. The innovative production technology guarantees impeccable execution of every detail while ensuring remarkable durability and resistance.

The gleaming surface of the basin, naturally reflecting the light, has a finish in classic white.

Technologies

The product is made of an innovative composite material, M+, which is exceptionally durable, as well as resistant to damage, pressure and extreme temperatures.

The material provides highly desirable, precise finishing. Product surface is perfectly smooth and even, and dimensions precisely match the technical drawing (tolerance 0-3 mm).

Perfectly smooth product surface is free from any ruptures of micro openings, where bacteria and germs could grow. It is also easy to clean and maintain.

The product is very pleasant to the touch. The satin finish resembles a smooth stone that has been polished by water.

Product surface is warm to the touch. Water maintains its temperature for longer, both maximising the user experience and saving energy.

Thanks to its high density, M+ composite provides exceptional acoustic absorption. Sound of the falling water is minimised.

Specification

- diameter: $\varnothing 40$ cm
- height: 15 cm
- no overflow
- drain cover included
- basin waste not included (A47CR)
- net weight: 4,19 kg
- gross weight: 4,6 kg
- to mount the basin, you must first cut a hole in the worktop with a diameter of 130 mm
