

STEEL-R45 | flush plate

Finish: brushed nickel (NI)

The OMNIRES STEEL-R45 dual flush plate combines meticulous detailing, durable materials, and exceptional everyday comfort of use. Made of high-quality stainless steel, it offers outstanding resistance to impact, pressure and cleaning agents. Its carefully finished, pleasant-to-the-touch surface retains its elegant appearance and performance over time. The contemporary design integrates seamlessly with the wall surface, while the softly rounded buttons and perfectly balanced proportions ensure effortless operation. Intuitive markings allow easy selection of the appropriate flush volume, supporting water efficiency and comfort with every use. Compatibility with STRONGFRAME concealed frames ensures reliability and a harmonious, fully coordinated solution.

Brushed nickel is an industrial finish in a silvery colour, with a satin surface. The product is coated using advanced PVD technology.

Technologies

Thanks to the innovative flushing technology, the water consumption is minimised.

The flush plate is coated using advanced PVD technology, which guarantees the highest possible durability and facilitates cleaning.

The flush plate, made of high quality stainless steel, features a perfectly crafted design and exceptional resistance to damage, preserving its appearance even after years of use.
