OMNIRES

ADAPTER | hand shower adapter

Finish: brushed graphite (GR)

Hand shower adapter is a practical component connecting the hand shower and the shower hose, which allows the water flow to be directed ergonomically. Thanks to the 60-degree angle, the water flows downwards rather than horizontally, increasing showering comfort. This practical solution can be applied to shower elbows and sliding bars without hand shower angle adjustment, deck-mounted bath mixers and multi-hole mixers for concealed installation.

Graphite is an intriguing finishing in the shade of metallic grey, with a satin, brushed surface.

Technologies

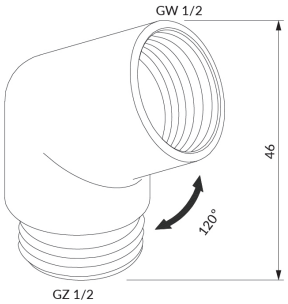

The product is made of high quality A-grade brass.

Flow characteristics

- working pressure 1-5 bar

Specification

- 1/2" connection
- height: 4.6 cm
