

HOLD M+ | [Inclusive Design] wall-mounted basin, 60 x 55cm

Finish: gloss white (BP)

The basin mixer from the Inclusive Design range enhances comfort, making it genuinely accessible and intuitive for every user. Equipped with an elongated, ergonomically shaped lever, it enables users to activate the water stream using their hand, wrist, or elbow. This ensures convenience for people with limited manual mobility and supports hygienic operation in environments with heightened sanitation standards. The contrasting colours of the hot and cold water markings improve legibility and make temperature selection more intuitive.

The basin is made of a composite material M+ whose main component is dolomite rock. The innovative production technology guarantees impeccable execution of every detail while ensuring remarkable durability and resistance.

The gleaming surface of the basin, naturally reflecting the light, has a finish in classic white.

Certificates: European Declaration of Performance (CE marking)

Technologies

The material provides highly desirable, precise finishing. Product surface is perfectly smooth and even, and dimensions precisely match the technical drawing (tolerance 0-3 mm).

Perfectly smooth product surface is free from any ruptures of micro openings, where bacteria and germs could grow. It is also easy to clean and maintain.

Thanks to its high density, M+ composite provides exceptional acoustic absorption. Sound of the falling water is minimised.

A solution from the Inclusive Design line, created for people with reduced mobility, ensuring comfortable, safe and equal access to all product functions.

The product is made of an innovative composite material, M+, which is exceptionally durable, as well as resistant to damage, pressure and extreme temperatures.

The product is very pleasant to the touch. The satin finish resembles a smooth stone that has been polished by water.

Product surface is warm to the touch. Water maintains its temperature for longer, both maximising the user experience and saving energy.

Specification

- length: 60.3 cm
- width: 55 cm
- height: 10.2 cm
- with integrated side handles
- with 1 tap hole
- no overflow
- basin waste not included (choose)
- capacity: 6,24 l
- net weight: 13,7 kg
- gross weight: 15,26 kg
