

LOWFIX | linear shower drain with tileable cover, 100 cm

Finish: black (BLH)

OMNIRES LOWFIX linear shower drain features a minimalist design and an exceptionally low profile, providing greater installation freedom. The drain is fitted with a tileable cover to blend harmoniously with the bathroom floor. The fast flow rate of water guaranteed by the waste makes showering a comfortable experience. The product is made of high-quality anodised aluminium, which ensures exceptional durability and resistance to corrosion, while its monolithic design guarantees a complete seal.

Certificates: European Declaration of Performance (CE marking)
