

BARETTI | shower system for concealed installation

Finish: matt black (BLM)

The OMNIRES BARETTI collection stands out with intriguing shapes of the body based on right angles and curves. This modern and harmonious form marvels with perfectly defined details.

Matt black is an expressive finishing with a velvety to the touch surface.

Design: Dominika Drezner-Ilczuk

Certificates: Polish Declaration of Performance (B marking)

Technologies

The mixer is equipped with the highest quality ceramic cartridge which ensures smooth and precise water flow control whilst guaranteeing long term product performance.

Thanks to the AIR WATER technology, the water is soft and pleasant to the touch, enhancing the overall showering experience.

The EASY CLEAN nozzles allow the user to easily remove any limescale from the shower head and the hand shower by simply wiping their silicone surface.

Developed to minimise environmental footprint, the ECO WATER technology reduces water consumption by approx. 30% without compromising on the overall product experience.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The mixer's body is made of high quality A-grade brass.

Flow characteristics

- water flow at 3 bar: 16 l/min
- hot water supply: max. 90 °C
- working pressure 1-6 bar
