

Y | shower system for concealed installation

Finish: semi-matt black (BLH)

The OMNIRES Y collection thrills with its simple line and an impeccable form which expresses the passion in pursuit for the ideal. The design has been inspired by and based on the shape of a circle. Its timeless and perfectly refined design, created in the spirit of minimalism, offers the maximum of interior design options.

Black is an expressive, dark finishing, with a perfectly smooth, satin surface.

Design: Janusz Langner, OMNIRES Studio

Technologies

The mixer is equipped with the highest quality ceramic cartridge which ensures smooth and precise water flow control whilst guaranteeing long term product performance.

The EASY CLEAN nozzles allow the user to easily remove any limescale from the shower head by simply wiping their silicone surface.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The product is made of high quality A-grade brass.

Flow characteristics

- hot water supply: max. 90 °C
- working pressure 1-10 bar
