

PARMA | shower system for exposed installation

Finish: polished chrome (CR)

The OMNIRES PARMA collection stands out with its minimalist, elegant design. A well-balanced form with rounded edges proves light and subtle. Well thought-out solutions give the collection a timeless character.

Chrome is a versatile finishing in a silvery colour, with the perfectly even and lustrous surface.

Design: Janusz Langner, OMNIRES Studio

Certificates: Polish Hygienic Certificate PZH

Technologies

The mixer is equipped with the highest quality ceramic cartridge which ensures smooth and precise water flow control whilst guaranteeing long term product performance.

Thanks to the AIR WATER technology, the water is soft and pleasant to the touch, enhancing the overall showering experience.

The EASY CLEAN nozzles allow the user to easily remove any limescale from the shower head and the hand shower by simply wiping their silicone surface.

The mixer's body is made of high quality A-grade brass.

Developed to minimise environmental footprint, the ECO WATER technology reduces water consumption by approx. 30% without compromising on the overall product experience.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The product's coating, made using advanced galvanization technology, is durable and easy to clean.

The shower head is made of high quality stainless steel.

Flow characteristics

- hot water supply: max. 90 °C
- water flow at 3 bar: 16 l/min
- working pressure 1-10 bar

Specification

- shower mixer
- stainless steel shower head (WGU225CR), dimensions: 25 x 25 cm, reach from the wall: 44 cm
- hand shower (DAVIS-RCRB), 3-function, streams: rain, massage, mixed
- PVC-coated flexible shower hose, length: 150 cm
- adjustable height, minimum/maximum system height: 89 cm/130 cm
