

CONTOUR | thermostatic shower system for concealed installation

Finish: brushed gold (GLB)

The OMNIRES CONTOUR collection intrigues with its extravagant form and decorative details. An austere, architectural design with a diamond milling marvels with the sophisticated combination of textures and perfect workmanship.

Brushed gold is a noble finishing in an elegant shade, with a contemporary, satin surface. The product is coated using the advanced PVD technology.

Design: Paulina Shacalis, OMNIRES Studio
Awards: Red Dot Design Award, Must Have
Distinctions: Dobry Wzór

Technologies

The mixer is equipped with the highest quality thermostatic cartridge incorporating a 38°C lock. The cartridge protects against sudden temperature changes and guarantees long term product performance.

The EASY CLEAN nozzles allow the user to easily remove any limescale build up by simply wiping their silicone surface.

The mixer's body, the valve and the rosette are all made of high quality A-grade brass.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The product is coated using the advanced PVD technology which guarantees highest possible durability, offers exceptional resistance to damage and facilitates cleaning.

Flow characteristics

- working pressure 1-10 bar
- hot water supply: max. 90 °C

Specification

- thermostatic shower/bath mixer for concealed installation (CT8036GLB)
- brass shower head (WG125CGLB), dimensions: $\varnothing 25$ cm
- brass shower arm (RA01C/KGLB)
- brass shower hand (CONTOUR-RGLB), 1-function
- stainless steel flexible shower hose, length: 150 cm
- brass shower elbow with a hand shower bracket (8873C/KGLB)
