Technologies

The mixer is equipped with the highest quality thermostatic cartridge incorporating a 38°C lock. The cartridge protects against sudden temperature changes and guarantees long term product performance.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The product is coated using the advanced electroplating technology which guarantees durability, offers good resistance to mechanical damage and facilitates cleaning.

Produkt jest objęty gwarancją na okres 5 lat. Poznaj szczegóły.

Thanks to the AIR WATER technology, the water is soft and pleasant to the touch, enhancing the overall showering experience.

The EASY CLEAN nozzles allow the user to easily remove any limescale from the shower head and the hand shower by simply wiping their silicone surface.

The mixer's body is made of high quality A-grade brass.
