

JIMJIM | shower column with head shower

Finish: polished chrome (CR)

The OMNIRES JIMJIM collection stands out with its raw, industrial aesthetic, perfectly complementing contemporary bathroom designs. Its ergonomic features are carefully refined to ensure intuitive operation and exceptional ease of use. The hand shower offers three water flow options – rain, whip, and mixed – while the shower head provides a soothing, even stream of water for deep relaxation. The shower column can be paired with any exposed shower or bath mixer, allowing you to create a configuration perfectly tailored to any bathroom's style and functionality.

Chrome is a versatile finishing in a silvery colour, with the perfectly even and lustrous surface.

Certificates: Polish Declaration of Performance (B marking)

Technologies

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The EASY CLEAN nozzles allow the user to easily remove any limescale build up by simply wiping their silicone surface.

Flow characteristics

- working pressure 1-5 bar

Specification

- to be mounted with any shower or bath mixer for exposed installation
- shower column with diverter and shower head arm
- distance between mounting brackets: 73.2 cm

- stainless steel flexible shower hose, length: 150 cm
- connecting hose for shower mixer
- swivel arm
- total system height: 87.2-114.2 cm (adjustable)

Product care

How to take care of a shower head?

Remember to regularly wipe the silicone nozzles with your hand to remove any limescale deposits that might be forming on their surface. Avoid using harsh cleaning agents that may damage the nozzles and the surface of the shower head.

The shower head should be angled after each use to allow the remaining water to flow out. This is the easiest yet necessary way to reduce the build-up of limescale from the water inside the shower head. Tilting the shower head additionally reduces the risk of the
