

YOSEMITE | wall-mounted shower system

Finish: semi-matt black (BLH)

Technologies

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The EASY CLEAN nozzles allow the user to easily remove any limescale build up by simply wiping their silicone surface.

Flow characteristics

- working pressure 1-5 bar

Specification

- to be mounted with any shower or bath mixer for exposed installation
